A Small Study Fixture

This document contains project-owned sample content.
It is designed to verify upload, rendering, analysis,
search, notes, progress, and tenant isolation.

STUDY PROMPT

Safe default: the fake provider makes no network request.

Duration: A Tiny Example

Modified duration approximates price sensitivity for a small parallel change in yield.

Example notation: dP / P is approximately -D x dy

STUDY PROMPT

The numbers are illustrative, anonymous, and not financial advice.
